Readings for Unit 1 were confirmed, with the following clarifications:

- The relevant chapters from Dreze and Sen would be ch.2 and 3 (for regional contrasts). The Krishna and Bajpai article from Unit 4 would be relevant here as well.
• From the Basu and Maertens *New Oxford Companion to Economics in India* (2012), only the Subramanian article is relevant for this section.

For *Unit 2,*

• The first two readings (Dyson and James) were confirmed.
• Articles by Dreze and Meenakshi (New Oxford Companion) to replace Deaton and Dreze on nutrition.
• The Tilak article is deleted.

The remaining readings for *Unit 2,* and all readings for Units 3 and 4, as well as the pattern of the question paper, to be discussed at another meeting in February. Teachers are requested to go through all the readings and suggest alternatives on bharat-arthashastra@googlegroups.com by the end of January. (To join this group, send an email to kartikeya2006@gmail.com). More articles from the New Oxford Companion may be suitable across topics.
