

Course 18: International Economics

The following notice was sent by email to all college teachers on 21.1.2014. As it was not received by some colleagues, it is being posted for general notice:

As we are continuing with the 2009 edition of Krugman and Obstfeld, the following decision taken in 2010 should remain valid:

- A. Appendices to Ch 6, 16 and 17 excluded.
- B. Only Postscript to ch.4 (pages 666-669) included; others excluded for examination purposes. We can review this next year.
