The attendees of the meeting decided –

1. Given the ongoing pandemic situation, the committee decided to retain the set of readings as last year.
2. It was further re-iterated that the existing Unit-3 of this course would remain de-emphasized as decided in the earlier meetings of the course.

3. However, if the situation improves before next academic year, then the reading list will be revised next year to include the following reading. The existing course instructors are requested go through it, so that we can discuss its inclusion next year.

4. It was recognised that there's a possibility of continuation of OBE in the forthcoming winter semester as well. Keeping in mind the set of restrictions adopted by the university (or a modified version of that), the committee members for the examination pattern accordingly decided to adhere to that guideline, however, the question wise weightage for different units of the course will not be strictly adhered to.
