

Minutes of the meeting to discuss

Introductory Mathematical Methods for Economics (Course No. ECON002)

A committee convened by Prof Sudhir Shah and Dr Soumendu Sarkar, Department of Economics, University of Delhi, invited the faculty in various undergraduate colleges affiliated to the university for deliberation on the above-mentioned course. This meeting was held online on October 27th, 2022, 3:30 PM, *via* Zoom.

The following decisions were made:

- K. Sydsaeter, P. Hammond: *Mathematics for Economic Analysis*, Pearson Education (2002)
would serve as the benchmark for teaching level, material coverage, and examination level for this course.
- The entirety of Chapters 1-9 of this book shall be covered in this semester.
- Examiners shall have wide latitude in deciding the examination for the course.
Each Unit of the course shall have 10-50% coverage in the final examination.
