The Econometric Society

Acknowledgements

The DSE Winter School 2022, in collaboration with the Econometric Society, is back in physical mode after a gap of two years. We heartily thank all the invited speakers for sacrificing their valuable time to deliver the lectures at the School. We are also grateful to the Econometric Society, in particular Dilip Mookherjee, Changyong Zhang, and Lyn Hogan, for the help and support at key stages in the preparation of the school. We thank the Society for sponsoring the four best paper awards in different fields of Economics.

The Winter School organising committee has complied with all the health and safety regulations imposed by the Government of the State of Delhi and the Government of India in organising the event. The local organising committee and the Econometric Society shall therefore be held harmless and indemnified for any health and safety incident that might arise during the meetings, including COVID-19 related ones.

More than 230 high quality papers were received this year, but we could accommodate only 72 papers out of them. We thank all the scholars for submitting their works in this school. We also express our sincere gratitude to the DSE faculty for spending precious time in reviewing the papers for presentation and awards.

We gratefully acknowledge the generous financial support from the Murty Foundation, Nestle India, Springer Nature, EXIM Bank, and another institution (which has requested anonymity). Our colleagues and students at the Delhi School, the office-bearers of the Centre for Development Economics (CDE), the staff of the CDE, and several others from the University have pitched in with a variety of help and support. We are thankful to all for their relentless work in organising the event.
